About Us

National Electrostatics Corp. (NEC) is a leader in manufacturing accelerator systems, dedicated to innovation and excellence in automation and control systems. We are seeking a skilled **Control Systems Technician** to join our team and support the design, implementation, and maintenance of our control systems.

Key Responsibilities:

- Install, test, troubleshoot, and maintain Linux operating systems.
- Diagnose and resolve issues with automation equipment and instrumentation.
- Collaborate with other departments to provide project updates.
- Perform routine system inspections and preventative maintenance.
- Ensure compliance with safety and regulatory standards.
- Document system modifications, configurations, and troubleshooting procedures.

Qualifications & Skills:

- High school diploma or equivalent.
- 1+ years of technical experience.
- Proficiency using the Linux operating system.
- Excellent problem-solving skills and high attention to detail.
- Ability to work collaboratively in a team environment while maintaining individual accountability.

Why Join Us?

- Competitive salary and benefits package.
- Supportive team environment with career growth opportunities.
- Continuous learning and professional development.

If you're a motivated **Control Systems Technician** looking to make an impact, we'd love to hear from you! Please submit your resume to personnel@pelletron.com or apply online at Careers - National Electrostatics Corp. (www.pelletron.com) using our quick 3-minute application.
