National Electrostatics Corp. (NEC) is seeking a skilled and dependable **Manual Machinist** to join our manufacturing team. This position is responsible for machining, fabricating, modifying, and repairing parts to meet engineering specifications and quality standards. The ideal candidate has strong mechanical aptitude, experience operating manual machine tools, and a commitment to producing accurate, high-quality work.

What You'll Do:

- Read and interpret engineering drawings, blueprints, and specifications.
- Machine, fabricate, modify, and repair components to meet required specifications and tolerances.
- Select appropriate tools, materials, and machining processes for each job.
- Set up, adjust, and operate manual machining equipment, including saws, sanders, lathes, mills, and drills.
- Use precision measuring instruments to inspect parts and verify dimensional accuracy.
- Monitor machining operations and make adjustments as needed.
- Perform routine equipment maintenance and maintain a clean, organized work area.

What We're Looking For:

- Previous experience operating manual machining equipment.
- Ability to read and interpret engineering drawings and blueprints.
- Knowledge of machining processes, materials, and manufacturing techniques.
- Strong mechanical aptitude and problem-solving skills.
- Excellent attention to detail and commitment to quality.
- Effective communication and teamwork skills.
- Experience using precision measuring tools, such as micrometers, calipers, pin gages, dial indicators, screw pitch gages, height gages, and comparator stands/gages.

Why Join NEC?

At NEC, you will have the opportunity to contribute to the manufacturing of specialized equipment while working alongside a knowledgeable and collaborative team. We value quality workmanship, continuous improvement, and employees who take pride in what they do.
