At National Electrostatics Corp. (NEC), we are a leading manufacturing company committed to producing high-quality electrostatic ion beam accelerator systems worldwide. We pride ourselves on our commitment to quality and customer satisfaction.

Are you a hands-on problem solver with a knack for working with tools and machinery? We're looking for a ***Mechanical Assembler*** to join our team and help build high-quality products with precision and care.

Responsibilities:

- Assemble mechanical components, sub-assemblies and finished products based on engineering drawings and specifications.
- Use hand tools, power tools, and precision instruments to assemble mechanical systems.
- Inspect and test assembled parts for quality control, ensuring they meet required specifications.
- Troubleshoot and resolve mechanical issues during the assembly process.
- Collaborate with engineers and team members to ensure assembly processes run smoothly.
- Ensure compliance with industry standards and customer expectations.
- Follow safety protocols and comply with all company policies and procedures.

Qualifications:

- Strong mechanical aptitude and knowledge of assembly processes.
- Ability to read and interpret technical drawings and schematics required.
- Proficient with hand tools, power tools, and measuring instruments.
- Strong attention to detail and ability to work independently or as part of a team.
- Soldering or wiring experience is a bonus.

Education and Experience:

- High school diploma or equivalent.
- Associate degree in mechanical engineering preferred.
- Previous experience in mechanical assembly or a similar field preferred.
