---

National Electrostatics Corp (NEC) is committed to delivering high-quality electrostatic ion beam accelerator systems and high voltage decks to our customers. We are looking for a detail-oriented Quality Control and Assurance Specialist to join our team and help maintain our high standards.

### Job Responsibilities:

- Develop, implement, and monitor quality control procedures.
- Conduct inspections and testing of raw materials, in-process production, and finished products.
- Identify defects, investigate root causes, and implement corrective actions.
- Ensure compliance with industry standards and company policies.
- Train employees on quality procedures and best practices.
- Collaborate with the production and engineering teams to enhance product quality.

### Required Skills:

- Ability to read blueprints.
- Familiarity with quality standards and processes to follow federal state, and local regulations.
- High attention to detail and the ability to work in a fast-paced environment.
- Excellent communication and documentation skills.

### Education and Experience:

- Bachelor's degree in Quality Management, Engineering, Manufacturing, or a related field preferred.
- 3 to 5 years of experience in quality control or assurance roles.
- Experience in manufacturing, production, or regulated industry.

### Why Join Us?

- Competitive salary and benefits.
- Opportunities for career growth and professional development.
- A supportive and collaborative work environment.

If you are passionate about quality and want to be part of a company that values excellence, we'd love to hear from you! Please submit your resume to [personnel@pelletron.com](mailto:personnel@pelletron.com) or apply online at Careers - National Electrostatics Corp. ([www.pelletron.com](http://www.pelletron.com)) using our quick 3-minute application.
